

PT. Maxidrill Indonesia

Safety, Health and Environment Policy Statement

PT. MAXIDRILL INDONESIA places the highest priority in achieving industry best practice in Safety, Health and Environment (SHE) performance by providing pro-active leadership and innovative SHE systems and programs.

Our commitment is to meet or exceed SHE standards and achieve our goal of an incident free, healthy and environmentally responsible work place.

Excellence in SHE performance shall be achieved through:

- ✍ Consulting with all employees with the clear recognition that all stakeholders must be involved in the SHE decision making process.
- ✍ Providing and maintaining innovative and pro-active SHE systems that meet or exceed industry standards.
- ✍ Complying with all applicable SHE legislation, codes of practice and industry standards and ensuring all employees are aware of their SHE obligations.
- ✍ Incorporating SHE awareness and compliance into corporate planning, management and operating procedures and systems.
- ✍ Providing quality training and educational programmes for all employees.
- ✍ Setting targets, recognising superior SHE performance and providing an environment that will create a desire to continuously improve.
- ✍ Preventing the pollution of land, water and air by any physical and chemical effluent by strict adherence to legislation and industry codes.
- ✍ Ensuring a process of continuous improvement through regular SHE audits, reviews and consultation with all stakeholders.
